

INDEX TO VOL. XV.

- Abbotts, Cocaine, 286
 Adenoid Vegetations, Treatment of, 119, 288 ; Knife for Removing, 30
 Allen, New Type of Chronic Nasal Catarrh, 114
 Allport, Peroxide of Hydrogen, 104
 Aluminium Acetico-Glycerinum, 285
 Ampullar Nerves, Relation to Associated Ocular Movements, 259
 Andrews, Malarial Otitis, 91
 Antiseptic Cords in Aural Diseases, 277
 Antitragus, Fistula of, 102
 Ariza, Autophony, 269 ; Tuberculous Otorrhoea, 276
 Aschenbrandt, Nasal Mucous Membrane, 256
 Asthma, Due to Nasal Polypi, 114 ; Surgery of, 113
 Ataxia, Ménière's Disease in, 279
 Atkin, Denunciation of Powders and Lotions, 103
 Atrophy of Conducting Apparatus, 17
 Auditory Nerve, Anatomy of, 252 ; Galvanization of, 279 ; Origin of, 85 ; Reflexes of, 260 ; Sclerosis of, 280
 Auditory Nuclei, 250
 Auricle, Cyst Formations in, 133 ; Gangrene of, 100 ; Malformation of, 248 ; Ossification of Cartilage of, 100
 Autophony, 269
 Ayres, Cocaine, 286
 Baber, Adenoid Vegetations of Pharynx, 119 ; Cocaine in Nasal Cases, 120 ; Guide to Examinations of the Nose, 339 ; Rhinolith, 284
 Bacon, Injuries of Membrana Tympani, 101 ; Treatment of Mastoiditis, 105
 Baginsky, Ménière's Complex of Symptoms, 108
 Baratoux, Cocaine in Otology, 98 ; Gummata of Membrana Tympani, 101 ; Gummata of Tympanum, 272 ; Necrosis of Temporal Bone, 105
 BARR, THOMAS, On Bone-Conduction of Sound, and the Value of Rinne's Test in the Diagnosis of Diseases of the Nervous Structures of the Ear, 330 ; Pilocarpine in Nervous Deafness, 108 ; Scarlatinal Otorrhoea, 275
 BARTH, A., Cotton Drumhead, 273 ; On the Pressure in the Middle Ear Produced by Inflations of Air through the Tube, 160
 BARTSCH, E., Bone-Conduction, 268 ; Contribution to the Differential Diagnosis between Disease of the Sound-Conducting and of the Sound-Perceiving Apparatus, 144
 Baumgarten, Eczema of Nostrils, 112 ; Galvano-Cautery, 270 ; Rupture of Membrana Tympani, 273
 Bayer, Osseous Cyst of Turbinate Bone, 117
 Bechtereff, Auditory Nerve, 251 ; Upper Olives, 251
 Benson, Ivory Exostosis of Meatus, 101

- BERTHOLD, "The Artificial Drum-head, and the Use of the Vitelline Membrane of the Hen's Egg in Myringo-Plastic Operations," Review of, 291
- BEZOLD, Bone-Conduction, 92; Watch as an Acoumeter, 79
- Bing, Boric Acid, 269
- Blau, Chloral Hydrate in Aural Diseases, 277; Leukæmic Aural Disturbances, 265; Sclerosis of Tympanic Mucous Membrane, 277
- Blennorrhœa, Nasal, in Infants, 283
- Bone-Conduction, 267; in Nervous Diseases of Ear, 330; Theories of, 92
- Bonham, Otology and General Medicine, 91
- Book Notices, Reviews, etc., 291, 339
- Boric Acid, 269
- Boucheron, Aural Compression in Deaf-Mutism, 95; Effects of Increased Pressure on Ears, 94; Epilepsy of Aural Origin, 266
- Bowman's glands, 255
- Brain, Abscess of, Cured by Operation, 176
- Buccola, Galvanization of Auditory Nerve, 279
- Buerkner, Clinique, 263; Paracusis Willisii, 268
- Burckhardt-Merian, Ear Tests, 262
- Burnett, Salicylate of Chinolin, 104
- Burow, Syphilis from Catheter, 91
- Carotid, Rupture of Internal, Subsequent to Necrosis of Temporal Bone, 295
- Catheter, Syphilitic Transmission by Means of, 91
- Cecchini, Caries of Petrous Bone, 276
- Celloidin in Preparing Ear Specimens, 86
- Cerumen, Cases of Inspissated, 272
- Charcot, Ménière's Disease and Ataxia, 279
- Chiari and Riehl, Rhinosclerosis, 286
- Chinolin, Salicylate of, 104
- Chloral Hydrate, 277
- Chorda-Tympani and Taste, 62; Bibliography of, 62
- Chromic Acid, Use of, in Nasal Catarrh, 115
- Cocaine, in Hay Fever, 286; in Naso-Pharyngeal Diseases, 119; in Otology, 97, 263
- Cochlea, Exfoliation of, 280; Functions of, 85
- Cochlear Duct, 250
- Cooper, Differentiation of Deafness, 267
- Cornil, Rhino-Scleroma, 118
- Cousins, Inflator, Evacuator, and Injector, 98; Tongue-Depressor, 120
- Cozzolino, Mastoiditis, 277
- Dalby, Perforation of Mastoid Cells, 105; Throat and Nasal Passages in Ear Diseases, 91
- Davidson, Heart Diseases and Deafness, 267
- Deafness, Caused by Catarrh of Anterior Nares, 186; Cured by Pressure on Tragus, 278; Differentiation of, 267; Due to Pressure, Cured by "Rarefactor," 97; from Heart Diseases, 267; Tests for Unilateral, 93
- Delie, Foreign Bodies in Ear, 101
- Delstanche, Deafness from Pressing the Ears, 97
- De Rossi, Clinique, 91
- Diabetes, Aural Diseases in, 265
- Diplacusis, Bone-Conduction in, 77, 91, 268.
- Dogiel, Glands of Olfactory Region, 255
- Drumhead, Artificial Cotton, 273
- Duncanson, Recording the Hearing, 267
- Dyer, Fistula of Antitragus, 102
- EATON, Hypertrophic Catarrh of the Anterior Nares as a Cause of Chronic Catarrhal Deafness, Illustrated by Auto-Aural Experiments and a Case, 186
- EITELBERG, A., Comparative Tests of

- the Hearing of One Hundred Persons by Means of Tuning-Forks, Watch, and Whispering, 299; Fracture of Manubrium, 273; Gangrene of Auricle, 100; Lucae's Pressure-Probe in Ear Diseases, 36, 103
- Epilepsy of Aural Origin, 266
- Epistaxis, Case of Sudden, 115
- Ethmoid, Diseases of, and Polypi, 117
- Excoriations of Nostrils, 283
- Exostosis, Case of, 272; in Peruvians, 249; Ivory of Meatus, 101
- External Ear, Literature of, 99, 271
- Field, Exostosis of Meatus, 101
- Finke, Epilepsy Cured by Removal of Nasal Polypi, 114
- Florevi, Oral Breathing, 285
- Foreign Bodies in Ear, 101, 222; Forceps for, 32
- Forel, Origin of Acoustic Nerve, 85, 252
- French, Nasal Catarrh, 112
- Freud, Olive, Anatomy of, 250
- Frontal Sinus, Empyema of, 287; Exostoses of, 117; Osteomata of, 287
- Galvano-Cautery, 270
- Garrigou-Désarènes Gunshot Injury of Mastoid, 106
- Gellé, Otoscope, 270; Relaxation of Membrana Tympani, 273; Subjective Auditory Phenomena, 92
- Gelston, Cocaine, 286
- GRAZZI, Hearing in Railroad Employees, 264; Manuale di Otolgia, Text-Book, 340
- Gruber, Exfoliation of Cochlea, 280; Test for Simulation, 92
- Guillemard, Chronic Otorrhoea, 103
- GUYE, Aural Forceps for Foreign Bodies, 32; Knife for Adenoid Tumors, 30
- Habermann, Tuberculosis of the Ear, 104, 276
- Hack, Asthmatic Conditions; Surgery of, 113
- Halle, Clinique, 263
- HARTMANN, A., Adenoid Vegetations, Chloroform in, 288; Cyst Formations in Auricle, 133; Hearing, Comparative Tests of the, in One Hundred Persons by Means of Tuning-Forks, Watch, and Whispering, 299
- HEDINGER, Adenoid Vegetations, 289; Foreign Bodies in the Ear, 222
- Hemorrhage, Traumatic from Ear, 275; Vicarious Aural, 267
- Hering, Chromic Acid in Nasal Catarrh, 115
- Herzog, Cocaine, 286
- Hessler, Thirty Cases of Mastoiditis, 107
- Heymann, Cocaine in Naso-Pharyngeal Cases, 119
- Hilles, Brain Abscess, 275
- Hoegyes, Centres for Associating Ocular Movements and their Relation to Ampullar Nerves, 259; Reflexes of Auditory Nerve, 260
- Hommel, Tragus Pressure in Deafness, 278
- Hopmann, Adenoid Vegetations, 288; Nasal Polypi, 254
- Hydrogen, Peroxide of, in Otology, 104
- Inner Ear, Report of Diseases of, 107
- Instruments, Description of, for Nasal and Pharyngeal Diseases, 98, 120.
- Jaccoud, Inflammation of Middle Ear, 103
- Jacquemart Exostosis of Meatus, 272
- Jakobsohn, Telephonic Apparatus, 268
- Jarvis, Deviation of Nasal Septum, 113
- Katz, Sudden Nasal Hemorrhage, 115
- Kaufmann, Graphic Demonstration of the Respiratory Movements of the Membrana Tympani, 93; Hearing with Lost Labyrinth, 280
- Kebbel, Benzoin in Catarrh, 112
- Keller, Rupture of Both Membranes, 93

- Kerr, Sclerosis of Auditory Nerve, 280
 Kessell's Operation, 278
 Kiesselbach, Bulging of Membrana Tympani, 93; Eczema of Nostrils, 111
 Kirchner, Antiseptic Cords, 277; Cocaine Anæsthesia in Aural Operations, 97; Pityriasis of Meatus, 100
 Koch, Orange-Peel in Nose, 118
 Koehler, Oil of Turpentine, for Larvæ in Ear, 272
 Krause, Instruments, 120
 Kretschmann, Cocaine in Ear Cases, 263
 Labyrinth, Leukæmic Diseases of, 265; Necrosis of, 105; not Necessary for Hearing, 280
 Lange, Aluminium Acetico-Glycerinum, 285; Cocaine of Doubtful Value, 98
 Larvæ, Oil of Turpentine for, 272
 Leech, Removal of, from Nose, 118
 Leukæmia, Ear Affection in, 107
 Loewenberg, Mastoiditis, 105
 Lucae, Bone-Conduction, 267; Kessell's Operation, 278
 Mackenzie, Chronic Nasal Inflammation, 112; Ulcerations of Nasal Septum, 284
 Magneine, Chorda Tympani in Birds, 248
 Malarial Otitis, 91
 Mandelstamm, Cicatricial Contraction of Meatus, 271
 Manubrium, Fracture of, 273
 Martin, Clinique, 90
 Mastoid, Gunshot Injury of, 106; Perforation of, 106
 Mastoiditis, Indications for Operating in, 106; Treatment of, 105, 277
 McBride, Adenoid Vegetations, 290
 Meatus, Cicatricial Contraction of, 271; Condylomata of, 100; Malignant Tumors of, 167; Membranous Occlusion of External Auditory, 57; Pityriasis of, 100
 Membrana Tympani, Bulging of, 93; Gummata of, 101; Injuries of, 101; Relaxation of, 263; Representation of Respiratory Movements of, 93; Rupture of Both, 93, 192; Rupture of, 273
 Ménière, Deafness Due to Mumps, 108; Menopause, and Influence of, on the Ear, 92
 Ménière's Disease and Ataxia, 279
 Menopause, Influence of, on the Ear, 92
 Menthol Bougies, 286
 Menthol in Nasal Diseases, 286
 Merian, Clinique, 263
 Michael, Adenoid Vegetations, 288
 Middle Ear, Pressure in, from Inflammations, 160; Report on, 102, 274
 Miot, Bad Results of Syringing, 94
 Miscellaneous Notes, 120
 Moldenhauer, Eczema of Nostrils, 111; Tubercular Ear Diseases, 277
 MOOS and STEINBRUEGGE, Histology of Temporal Bones in Tertiary Syphilis, 1; Results of the Examination of Six Petrous Bones from Three Deaf-Mutes, 123
 Morpurgo, Indications in Mastoiditis, 106
 Moure, Ozaena, 115
 Mumps, Deafness Due to, 108; In Production of Aural Diseases, 270
 Nares, Bony Occlusion of, 118; Deafness Caused by Catarrh of Anterior, 186
 Nasal and Dental Diseases, 285
 Nasal Catarrh, Benzoin Tincture in, 112; Reflex Neuroses from, 113
 Nasal Cauterization Followed by Delirium, 285
 Nasal Mucous Membrane, Nerves of, 256
 Nasal Polypi, a Cause of Asthma, 114; as a Cause of Epilepsy, 114
 Noquet, Condylomata of Meatus, 100; Foreign Bodies in Ear, 101
 Normal and Pathological Anatomy, 247
 Nose and Naso-Pharynx, Report of Diseases of, 109, 252, 281

- Nose, Classification of Diseases of, 112 ; Foreign Bodies in the, 118
 Nose, Guide to the Examination of the, 339
 Nostrils, Eczema of, 111
- Olfactory Region, Glands of, 255
 Olives, Anatomy of, 251
 Ollivier, Mumps in Aural Diseases, 270
 Oral Breathing, 285
 Othematomata, 248
 Otitis, Suppurativa in Phthisis, 103
 Otologia, Manuale di, Text-book, 340
 Otorrhœa after Scarlatina, 275 ; Followed by Brain Abscess, 275
 Otoscope, 270
 Owens, Cocaine in Hay-Fever, 120
 Ozæna, Treatment of, 115, 284
- Paget, Cocaine in Coryza, 120
 Painless Suppuration of Middle Ear, 278
 Palate Hook, 287
 Panas, Exostoses of Frontal Sinus, 117
 Parker, Brain Abscess, 275 ; Gun Breech and Ball in Nose, 119
 Pathology and Therapeutics of the Ear, 87
 Paulssen, Bowman's Glands, 255
 Payne, Rhino-Scleroma, 118
 Petrous Bone, Caries of, 276 ; Examination of, in Deaf-Mutes, 123
 Phthisis, Otitis Suppurativa in, 103
 Physiology, Report, 259
 Picque, Tubercular Osteitis, 276
 Pilocarpine in Ear Diseases, 108
 Politzer, Leukæmia of Ear, 107 ; Pilocarpine in Ear Diseases, 108
 Polypi, Naso-Pharyngeal, 117
 Pomeroy, Otological Contributions, 91 ; Unilateral Deafness, Test for, 93
 Powders, Dangers of, in Ear Diseases, 103
 Pressure, Effect of, on Ears, 94
 Pressure-Probe in Ear Diseases, 32, 103
 Prior, Cocaine, 282
- Pye, Necrosis of Labyrinth, 105
- RASMUSSEN and SCHMIEGELOW, Clinical Contributions to the Study of the Malignant Tumors of the Middle Ear, 167
- RAY, Rupture of Both Mtt from a Fall on the Head ; Escape of Blood Followed by a Watery Discharge ; Fracture of the Tympanic Portion of Both Temporal Bones, 192
 Reports on Progress of Otology, 85, 247
 Rethi, Chromic Acid in Nasal Catarrh, 116
 Rhinoceros, Eustachian Tubes of, 87
 Rhinolith, 284
 Rhino-Scleroma, 118
 Rhino-Sclerosis, 286
 RICHEY, S. O., Atrophy of Conducting Apparatus, 17
 Rinne's Experiment, Value of, in Diagnosis of Ear Diseases, 195, 267, 330
 Rohrer, Malformation of Auricle, 248 ; Rinne's Test, 267
 Rose-Catarrh, 115
 Rosenberg, Menthol in Nasal Diseases, 286
 Roth, Reflex Neuroses from Nasal Catarrh, 113
 ROTHHOLTZ, Diplacusis, 77 ; Membranous Occlusion of External Auditory Canal, 75
- SCHAEFFER, "Surgical Experiences in Rhinology and Laryngology from 1875 to 1885," Review of, 293
 Schleglendahl, Empyema of Frontal Sinus, 287
 Schmaltz, Asthma Nervosum, 284
 Schmiegeloff, Excoriations of Nostrils, 283 ; Rhinolith, 284
 Schnitzler, Cocaine in Naso-Pharyngeal Cases, 119
 Schroetter, Bony Occlusion of Nares, 118
 Schubert, Tone-Deafness, 89
 SCHULTE, Chorda Tympani and Taste

- in Anterior Two Thirds of Tongue, 62
- SCHWABACH, Aural Disease in Diabetes, 265 ; Maceration for Preservation, 250 ; Ossification of Cartilage of Auricle, 100 ; the Value of Rinne's Experiment in the Diagnosis of Diseases of the Ear, 195
